What The WEDGE Is and Isn't

As we begin this new year, I want to go over what The Wedge of Health Freedom is—and what it isn't. First, the Wedge aims to restore freedom, affordability, confidentiality, simplicity and patient-centeredness to the *delivery* of medical care. Second, the Wedge is not coverage. Wedge doctors and practices deliver medical care for cash, check or charge. Their costs can be lower because they don't take insurance or participate in government programs.

Third, again, The Wedge is not insurance. We encourage you to retain coverage, preferably catastrophic. As more doctors enter The Wedge and go free from third-party control, we expect health plans to disappear and affordable true insurance for catastrophic events to reemerge.
