## **TOMORROW: My Book Will Be on Amazon**

Tomorrow, my book ***Big Brother in the Exam Room*** will be available on Amazon for purchase. It's released by Citizens' Council for Health Freedom and Beaver's Pond Press.

In this groundbreaking book you'll learn how the electronic health record is not what you think it is. You'll learn that it has caused death and injury and new medical errors. You'll learn how this command and control surveillance system lets outsiders control medical treatment decisions.

And you'll discover that Republicans and Democrats are both to blame at the Congressional and the state level. They think your data is their data because you don't pay the bills. Find the book at:
