

Citizens' Council for Health Freedom

Health Freedom Minute

November 8, 2017

Do Wedges Have Ripples?

Sometimes a new movement explodes on the scene. Sometimes, it's a drop of water that sends tiny ripples across the pond. A new freedom is skipping quietly across the choppy dark ocean of bureaucratic health care. Eyes light up when we discuss how simple and affordable medical care could be. Thankfully, more doctors are planning their escape from government and health plan controls.

Patients and doctors must lead the way where Congress refuses to go: away from socialized health plans and back to the freedom, affordability and patient-centeredness of direct payment and real insurance. This is not rocket science. It's how you buy everything else. And it's the only way to protect ethics and excellence.
