Five Signs of Obamacare in Trouble 2

Here are three more signs Obamacare is in trouble. First, the Illinois legislature, controlled by Democrats, refused to establish a state exchange. According to news reports, they are afraid of how it will impact 2016 elections.

The fourth sign is Obamacare enrollment has been downgraded to only 9.1 million by the end of this year. At that rate they'll never get to 24 million enrollees by the end of 2016, the number predicted by the Congressional Budget Office and the number they'll need to financially handle the end of three years of Obamacare bailout subsidies to insurers.

The fifth sign is that one poll finds 58% of Americans in support of repealing Obamacare.
