Snatching Middle Class Wages

The road to socialism is paved with good intentions, deceptive euphemisms, political agendas, crony capitalism and a population that's forgotten what it's like to be free. Under socialism, worker's wages are taken by force and distributed to others, giving everyone less reason to work.

Wages received in exchange for hard work, education, expertise, and time away from home and family are taxed away with little left to the worker.

For example, the Affordable Care Act redistributes worker's wages, particularly middle-class wages, to others who never earned them. There are at least seven redistribution systems in the ACA, and most of these dollars go directly to health plans. Tomorrow, I'll share them all.

Presented daily by Twila Brase, President, Citizens' Council for Health Freedom.
