### Deaths (12)

(Minnesota hospitals average approximately 6 million outpatient and 600,000 inpatient visits - *MN Hospital Association, accessed online 2/16/06*)

|                              |   |
|------------------------------|---|
| Contaminated Drug/Device     | 1 |
| Death Associated with a Fall | 3 |
| Device Malfunction/Misuse    | 3 |
| Hypoglycemia                 | 1 |
| Intra/Post-Op Death          | 1 |
| Intravascular Air Embolism   | 1 |
| Medication Error             | 1 |
| Suicide                      | 1 |

### Serious Disability Defined in MN Statute:

(1) A physical or mental impairment that substantially limits one or more of the major life activities of an individual, (2) a loss of bodily function, if the impairment or loss lasts more than seven days or is still present at the time of discharge from an inpatient health care facility, or (3) loss of a body part.

## HEALTH CARE EXCELLENCE IN MINNESOTA, 2006

CCHC Provides Quick Comparison of Numbers from "Adverse Health Events in Minnesota" (MN Health Dept. report, Feb 2006)

| Type of Event   | Number of Events | Serious Disability | Neither Serious Disability or Death | Death |
|---|------------------|--------------------|-------------------------------------|-------|
| Wrong Body Part   | 16               | 1                  | 15                                  |       |
| Wrong Patient   | 2                |                    | 2                                   |       |
| Wrong Procedure   | 8                |                    | 8                                   |       |
| Foreign Object  | 26               |                    | 26                                  |       |
| Intra/Post-Op Death   | 1                |                    |                                     | 1     |
| Contaminated Drugs.Devices, Biologic  | 1                |                    |                                     | 1     |
| Misuse or Malfunction of Device   | 4                | 1                  |                                     | 3     |
| Intravascular Air Embolism  | 1                |                    |                                     | 1     |
| Wrong Discharge of Infant   | 0                |                    |                                     |       |
| Patient Disappearance   | 0                |                    |                                     |       |
| Suicide or Attempted Suicide  | 1                |                    |                                     | 1     |
| Death/Disability due to Medication Error                                    | 7                | 6                  |                                     | 1     |
| Death/Disability due to Hemolytic Reaction                                  | 0                |                    |                                     |       |
| Death/Disability during Low-Risk Pregnancy/Labor/Delivery                   | 0                |                    |                                     |       |
