CCHF Sends Governors a Letter

The Obama administration is demanding that States declare their intentions regarding an Obamacare exchange by Friday, November 16. They want state governors to declare whether the state will run a state-funded federal takeover center or whether the state will partner with the federal government to run it. Either way, they want your governor to comply or commit to cooperate.

Our organization, Citizens’ Council for Health Freedom, just sent certified letters to every Governor requesting that they refuse to comply, cooperate or commit regardless of the election. You too can write your governor. Find the address on our website. Go to nixthehix.org. That’s n-i-x-t-h-e-h-i-x.org
