Boycott Pro-Obamacare Pharmacies!

The Facts:

Pharmacy chains **CVS** and **Rite Aid** have decided not only to officially support Obamacare, but to *promote* it in their more than **20,000** retail locations. The chains will launch informational and promotional campaigns that may include one or all of the following:

- Retail events and booths at health fairs
- Brochures
- Informational websites
- Hosting insurance agents and **Obamacare “navigators”** in stores

Who Are the “Navigators”?

These “navigators” will be government-paid workers stationed in stores to promote Obamacare enrollment and directly assist customers in enrolling in the government exchanges.

The Problem:

“Navigators” will have access to *significant private* patient information when helping individuals enroll in the exchanges.

**NOTE:** “Navigators” have very few eligibility requirements and could have criminal records as they are not subject to background checks.

By pushing Obamacare, pharmacies are promoting the rationing of care, privacy intrusions, control of doctors and the end of private insurance.

Shop Elsewhere

Find other pharmacies that *do not* promote a controversial law that will limit access to doctors, increase costs, violate privacy and lead to poor care.

Other pharmacies may also be promoting the law but haven’t announced it. Express your disappointment and shop elsewhere.

Protect Your Health Freedom

Let CVS and Rite-Aid know that Obamacare is not a product you want to shop for in their stores.

Call the companies’ community relations and customer service departments at:

**CVS:** (401) 770-2898  
**Rite Aid:** (717) 761-2633

and tell them:

- Do not promote Obamacare.
- You will *refuse* to shop in their stores if they continue to promote this flawed and dangerous health care law.
- You do not want to be hassled by “navigators” while you shop.
- Do not bring policy agendas and political promotion into shopping and alienate the Americans who disapprove of Obamacare.
