Citizens’ Council on Health Care
invites you to a Luncheon Presentation

**Medicare’s Midlife Crisis**

**Featuring Sue A. Blevins**

President of the Institute for Health Freedom in Washington, D.C., and author of *Medicare’s Midlife Crisis* (published by Cato Institute), Ms. Blevins, a former Registered Nurse who practiced nursing in the U.S. and Canada, provides a well-researched presentation on the origins of Medicare and how it came into its current financial crisis. She describes how Medicare restricts choices, fails to protect against catastrophic medical costs, jeopardizes the patient-doctor relationship, and threatens patient privacy. Finally, she explains what steps policy makers, the health care industry and the general public should take to secure health care choices and access into the future.
