Health Freedom Minute

February 27, 2023

“Never Again” Bills Your State Should Pass

The “never again” movement to stop public health tyrants began after the Covid shot mandates started to emerge. By late 2021, 46 state legislatures had introduced bills to forbid vaccine passports, vaccine mandates and school mask mandates. Last year, New Hampshire passed 12 “never again” bills. Tennessee now provides ivermectin over the counter, so patients never again have to order it from India and wait a month. And Missouri prohibits retribution against doctors who prescribe ivermectin.

Our organization has a bill to allow the patient’s trusted doctor to direct their care in the hospital, and another to make sure that a patient never again has to die alone. Come to CCHFreedom.org, click on our model legislation page, and send links to your state legislators.
