## **Fight the Real Enemy**

Many Americans are fighting the wrong enemy. This is not about Covid anymore. We are not in a fight against the virus, vaccination mandates, or our own neighbors.

Americans are in a battle for truth and for life and the right to be fully free. Free to make one's own medical decisions. Free to live without being irreversibly injected with "genetic material." Free to live with the risk of the virus. Free to access and provide life-saving medication without penalty. Free to speak up without being shut down. Free to reject government statements as truth. Free to work, live and let live. Free to breathe and worship freely. Free to die free.

Fight the real enemy: the corporate and government usurpation of personal rights and the imposition of a new standard of government power under the guise of "public health."

Presented daily by Twila Brase, President and Co-founder  
Citizens' Council for Health Freedom.
