Pick a Side - Liberty or Tyranny

Eighty years ago, Japan went to war with America. We won. Today we're at war with powerful domestic enemies. Corporate media, corporate health care, Big Tech, and Big Government are aligned to strip Americans of human rights, constitutional rights, patient rights and privacy rights.

In the push to force Americans to comply with a Marxist agenda, they are content to discard the truth, ignore science, wantonly tell lies, and let people die. The Chicago family of a Covid patient intubated for a month had to sue to get ivermectin. They won. He showed immediate improvement, was on the drug for five days and was released 15 days later. The denial of life-saving care was both cruel and criminal. We're in a battle for life and liberty. Pick a side.
