Physicians Penalized for Speaking Truth

There is no freedom if there is no freedom of speech. The situation is dire within the medical community putting patient's lives at risk. Across the country, doctors speaking outside the narrative are being hunted, as **Dr. Richard Urso, MD**, said at a Covid Summit.

In Texas, the Houston Methodist Hospital suspended ENT physician **Mary Talley Bowden** for tweeting against the injection mandate and spreading so-called "misinformation," such as the value of ivermectin to save lives. She's now seeking to hire an unvaccinated doctor and taking only unvaccinated patients.

In Maine **Dr. Paul Gosselin's** license to practice has been suspended for opposing the injection mandate and writing exemption letters for his patients. Support doctors that stand up against tyranny. You'll need them.
