**Biden’s NEW 96-Page COVID-19 Preparedness Plan**

The virus, and the fear-based campaign that turned too many Americans from independent souls to compliant subjects, has been a boon to tyrants and profiteering opportunists in and around the White House. Before mid-term elections, which the Left is currently losing because of tyrannical COVID-19 lockdowns and controls, the administration is taking COVID-19 to the next level, mostly out of view.

Don’t take my word for it. Look at their new 96-page *National COVID-19 Preparedness Plan*. It is dated March 2022. They plan to vaccinate the children, target anyone sharing “misinformation,” and push for masks “when the risk of severe disease in the community is high” and let masks be “taken off when the risk is low.” They want to normalize masking and enforce mandates.
