Let's Get Out of the W.H.O.

The World Health Organization, or the W.H.O., is not a friend of freedom, and it's not a friend of the United States. About 20 years ago, it put out a report claiming the U.S. health care system ranked 37th best in the world. France was first. Andorra was fourth. Do you even know where Andorra is? Yet deep in the middle of this report, even it could not deny that the U.S. ranked number one in patient-centeredness.

The W.H.O. now plans to adopt a pandemic treaty giving it control of every member nation in a pandemic. In a complete violation of our constitutional rights and national sovereignty, this would include the U.S., which is its third largest funder at \$693 million dollars. Let's leave the W.H.O. behind and take our U.S. dollars with us.
