## Overseas Abortion Pills vs. Ivermectin

The final ruling on abortion written by Justice Alito will likely come out in June, putting abortion back where it belongs constitutionally, in the states.

*The Washington Post*, in an article about the coming battle over abortion pills, says the following: "In places restricting access to pills, some patients are instead turning to overseas online pharmacies selling generic pills manufactured in India and China."

We'll consider this: our organization has been hearing more and more stories from people whose life-saving Ivermectin orders from India have been seized by the FDA. Will the FDA also seize abortion pills, or will the Left's political agenda allow these life-ending pills to make it through the border? Are we under rule of law or rule of political agenda?

**If Roe falls, abortion pills will be the next big fight,"** Rachel Roubein, *The Washington Post*, May 5, 2022: <https://wapo.st/3Fmdl9R>
