Join Us to Build a “New Framework for Health Freedom”

How do you feel about today's health care system? Do you feel cared for? Does it feel like you're on a conveyer belt? Do you get a physician if you want one? Do you know the price you'll have to pay? Do you face delays or restrictions? Are your requests for specific treatments thoughtfully considered or dismissed?

The patient is the point of the entire health care system. If it doesn't work for the patient, it doesn't work.

We are advancing a New Framework for Health Freedom in America. A free-market framework.

If you're in the Twin Cities on Thursday, September 15th come to the CCHF annual dinner with special speaker General Michael Flynn, who will give an unapologetic defense of liberty in health care. We'd love to have you join us.
