Justice Gorsuch Was Wrong

In 2020, the Supreme Court issued a bad ruling on sexual identity. The Gorsuch ruling was opposed by Justices Alito, Thomas and Kavanaugh. In short, Gorsuch changed the legal definition of sex – male or female – to sexual orientation – who you want to have sex with – and gender identity – what sex you want to be rather than what sex you are.

Based on this ruling the Biden administration has now issued a proposed non-discrimination rule to force doctors and hospitals to provide “gender-affirming care” regardless of their moral objections.
