Covid Insanity Continues

The Covid insanity continues. The Coast Guard Academy may soon terminate seven cadets who refuse to take the shot, despite the CDC’s new guidelines saying there should be no discrimination against the uninjected. Then there’s Berkeley. The university is bringing back the mask – for the flu. They’re mandating the mask during flu season unless the student gets the flu shot.

Are these institutions afraid or just power-hungry? Our organization, Citizens’ Council for Health Freedom, specializes in facts over fear. Today is the last day to register for our annual event with General Michael T. Flynn on Thursday, September 15. Go to CCHFreedom.org to register. CCHFreedom.org
