Physicians Under Fire

A physician willing to give an honest opinion outside of the official government Covid narrative is rare. Health care systems have silenced them, and government medical boards have threatened their licenses. Doctors who dare to provide lifesaving early treatment have been fired.

Now the California legislature has voted to label a physician’s speech that runs counter to the official narrative as misinformation and disinformation, and therefore “unprofessional conduct.” This could lead to the doctor being stripped of their license to practice. Assembly Bill 2098 has been sent to Governor Newsom for his signature.

Contact the governor and tell him to veto AB-2098. Physicians must never be silenced by the government.
