Business Group's Single-Payer Propaganda

A new group wants a single-payer system for America. Its president, a former health plan executive, says anything else is “postponing the inevitable.” His statement is excellent propaganda, but pure nonsense. Socialized medicine is against everything that America stands for.

He says our current system is dysfunctional. Indeed, but the cause is government, starting with WWII wage and price controls that led to employers being in charge of health insurance options. And then to Medicare. The last thing we need is a complete government-run system, the ultimate of dysfunctional systems. Let's remember we're Americans. We can ignore propaganda and lead ourselves back to affordable prices and freedom for patients and doctors.
