# Health Freedom Minute

March 6, 2019

## **Medicare for All – Covering Non-Citizens**

It's day three of Medicare for All. Yesterday I listed the frontline promises in the bill. Now for the details. The first promise is "Universal coverage." *Everyone* in the US would be entitled to health care benefits. Everyone. The bill specifically makes it unlawful to discriminate based on citizenship status. And if that's not clear enough, the bill also empowers health officials to make other unnamed individuals eligible to "ensure than every person in the United States has access to health care."

Whatever the cost for this bill, mandated taxpayer funding of care for non-citizens would make it more expensive, not less.
