Medicare for All – Obamacare 2.0

Tomorrow marks the 9th year of the Affordable Care Act. And this is Minute 15 of Medicare for All, which I'm calling Obamacare 2.0. Medicare for All is meant to solidify Obama's federal takeover of American medicine.

The ACA made real insurance illegal, imposed new taxes, forced everyone into managed care, increased the deficit, made the insured uninsured and then penalized them, reduced employee wages, and created a national database to track insured status. Medicare for All goes farther, eliminating health plans, setting up regional directors, issuing global budgets, seizing control of doctors, and rationing medical care. Together we'll stop socialized medicine, so don't despair. Use tomorrow to raise a glass to its coming demise.
