Health Freedom Minute

May 24, 2019

Have you Refused the Medicare “Annual Wellness Visit”?

Have you heard of the Annual Wellness Visit for senior citizens? It's mandated by the Affordable Care Act. As I write in *Big Brother in the Exam Room*, this visit is an annual inspection and recording of every senior citizen's physical and mental capabilities.

In my book I share an email we received of a written exchange between a patient who refused and the insistent clinic administrator. Some patients are ousted from the practice when they refuse. A patient who just read my book emailed our office wondering about what the clinic called a “Vatica visit.” Yes, that's one of the companies used for the inspection. Please refuse and let us know what happens.
