Tell A Young Person What America Means to You

Happy Independence Day! Today honors the Founding Fathers who pledged their lives, fortunes and sacred honor to establish America – a nation that supports life, liberty and the pursuit of happiness; the greatest and most prosperous nation the world has ever seen. Remember the soldiers on battlefields today, and on our home-front, warriors fighting daily to protect us and our constitutional Republic.

Leaders of the anti-American movement, the socialist vanguard, have loud voices in Congress, schools, media, Hollywood, business, and in the sports arena. And too many young Americans support socialism. They have no idea how great America is. As the stars and stripes passes by today, tell a young person what America means to you.
