**Biden Versus Bernie—Medicare for All**

Biden and Bernie are trading barbs over Medicare for All. But what do you need to know? Both Bernie Sander’s Medicare for All and Joe Biden’s public option plan are socialized medicine. They will both lead to a government-run, single-payer system of care and coverage that puts American lives and quality of life at risk.

Biden says he doesn’t support Medicare for All; that unlike Bernie he wouldn’t end employer-sponsored coverage. But researchers disagree, saying the public option, a government-run health plan available to all Americans, would lead to 119 million people losing employer coverage. So, don’t be fooled. Bernie and Biden both plan to end freedom, ration care, and impose single-payer.
