## Hydroxychloroquine Battle Heats Up

Congressman Louie Gohmert is taking Hydroxychloroquine. But can you take it? Probably not. A group of physicians made the news in D.C. when they asked for bans on this drug to be lifted. The video went viral. In response, Facebook shut down the video and the Ohio Board of Pharmacy banned the drug, but reversed their decision at the governor's request. Many other states ban the drug, leaving patients to die needlessly.

This 65-year-old drug is on an international "safe essential" drug list. It can be used like any other drug, subject to a doctor's prescription. HHS Secretary Azar said, "If a doctor wishes to prescribe it working with a patient, they may prescribe it for any purpose that they wish to do so." Find a Wedge doctor that offers it at [JointheWedge.com](http://JointheWedge.com).
