Health Freedom Minute

August 28, 2020

It's "Face Freedom Friday"!

Today is Face Freedom Friday. We've launched Face Freedom because government-mandated masking is wrong. Americans have been forced to breathe and speak through a mask or face financial or other penalties. We must not accept this serious offense of our freedoms. Therefore, every Friday, we're asking Americans to take a picture of their smiling faces and post it with the hashtag #FaceFreedom.

The government mask must never be legitimized. If the government can put something between you and the air you breathe, they can mandate anything in the name of "public health." So, take a selfie or a group photo and post it online with the hashtag #FaceFreedom. Find more information at FaceFreedom.org And thank you for helping us in this national campaign to unmask America.
