COVID Truth and Lies

It is dangerous to exchange the truth for a lie. COVID-19 lockdowns and deaths due to lockdowns have proven this biblical point. Let's compare COVID lies with truth:

We were told the PCR test shows whether you have COVID, but now we know it's been used the wrong way and 85 to 90 percent of positive cases are likely negative.

High death rates have been reported, but it appears only six percent have died from COVID and many of the rest may have died with COVID but from other conditions. And given the PCR testing error, how many actually had COVID?

Third, the news media acts as though the rise in cases is panic-worthy even as deaths plummet—they ignore the troubling PCR testing error. Americans need COVID truth, not lies.

Presented daily by Twila Brase, President, Citizens' Council for Health Freedom.

*The Health Freedom Minute is now heard in 47 states:
Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH,
afternoons on American Family Radio, and daily on the CSN network
and Bott Radio Network.*
