Trump Executive Order is CCHF Win

On October 3, President Trump signed an Executive Order on Medicare that includes a provision that we've pushed for in meetings with the White House for three years. He requires federal officials "to preserve the Social Security retirement insurance benefits of seniors who choose not to receive benefits under Medicare Part A." The deadline is March 31 of 2020.

Thus, if you refuse Medicare or later opt out of Medicare, you will not lose your Social Security benefits. The Clinton administration unlawfully tied the two programs together in 1993 and the President has now ordered the agencies to undo this wrong. Thank you for supporting CCHF and our work to bring health freedom back to America!
