Protect Baby DNA—Donate to CCHF by Tomorrow!

We are working to stop government from analyzing the DNA of newborns without parent consent. We’re working with a member of Congress to stop this egregious violation and to require parent consent for federally-funded research. This battle is not in the news, but what a battle it has become!

Please donate to this critical work. Tomorrow is the last day to have your donation matched. Our $20,000 matching grant opportunity goes away at midnight tomorrow. Please donate today so we can protect newborn citizens, privacy rights, and parent rights. We can’t do it without you. Please make your gift go twice as far! Donate today at cchfreedom.org; cchfreedom.org; cchfreedom.org
