**Thanks to YOU, we’re in Washington, D.C. Today**

Thanks to listeners who donate to Citizens’ Council for Health Freedom, we are in Washington, D.C. today. We’re telling Congress to stop the legislation that would give every American a government-issued number to track our health and link our medical records together. You would not be able to escape this number. You couldn’t get care without this number. And you would never again get a fresh unbiased second opinion.

This number would create a national medical records system, the foundation of a national health care system. We’re in D.C. telling Congress to refuse to impose a National Patient ID on Americans. Call your Senators today and tell them, “Stop the National Patient ID. Stop the National Patient ID.”
