The Wedge Makes Doctor Visit Easy

We just got this story. A woman wanted to see a doctor at her clinic, but due to a recent merger the closest clinic didn’t have her account. The clinic refused to let her make an appointment until she signed up for another account. It wouldn’t even tell her if it had any appointments. But she didn’t want two accounts. All she wanted was to see the doctor for an earache, but it all became complicated.

That’s when she remembered the Wedge. She went to jointhewedge.com, found a physician who could see her within the hour, even if she got there after clinic hours. She paid just $50 and went away thrilled at how easy it was. Find a doctor at JointheWedge.com
