Good News – Find an Opted-Out Physician

It's Wedge of Freedom Wednesday where until COVID, I would share information about patient-centered, free-market doctors, whose only concern is you, not the government, your employer or a health plan. They accept only cash, check or charge, and you can find them at The Wedge of Health Freedom. Just go to JointheWedge.com. Today I have good news.

Shortly before Biden's inauguration, the Trump administration responded to a special request we'd made. There are about 26,000 doctors and other clinicians that have opted out of Medicare. They are not under government control. That list is now available online. It can be downloaded and searched. You can search the spreadsheet by state, city, or specialty. Find a link to the list of opted-out doctors on the top of our website. Go to cchfreedom.org.
