## Is this Why W.H.O Dropped the COVID Investigation?

The World Health Organization, the WHO, has dropped its investigation of China's Wuhan Institute. They're back to saying COVID-19 came from an animal. Really?

We know the United States was doing "gain of function" research to make the SARS virus and other viruses more virulent. This controversial research was halted in 2014, the same year Dr. Fauci's agency started sending money to a group doing gain of function research in Wuhan – \$3.7 million over seven years. Now we know that WHO's lead investigator of the cause of the pandemic, received those U.S. dollars while working at Wuhan. Is this, and the WHO's close connection with China, and President Biden recommitting to fund the WHO at about \$400 million, is this why the WHO dropped the investigation?
