## **Find Health Care Alternatives — Break Free**

The COVID-19 crackdown will be over when the government says it is or Americans refuse to live in public health tyranny. The current tolerance for government overreach is shocking.

Let's start thinking freedom, including health care freedom. Americans should search for free-market alternatives that offer mission-minded physicians that put the patient first. Consider leaving your socialized health plan and employer coverage behind. Join an affordable health care sharing organization. Go to [JointheWedge.com](http://JointheWedge.com) and find an independent doctor that doesn't let outsiders interfere. Negotiate for prices, pay cash even if insured, and never accept ridiculous prices for care or coverage. You can stop the organized march through health plans to socialized medicine. It's time to break free.
