## Minnesota's Grand Deception

Minnesota Democrats who are totally in charge intend to install the Obamacare federal takeover center – the Exchange. The Senate made it their very first bill of the session: Senate File number 1. Implementing Obamacare is their first priority. But to deceive the public, they are not calling it an Exchange, they are calling it the “Minnesota Insurance Marketplace.” This is no such thing.

Governments don't create marketplaces. They regulate them and often destroy them. Why aren't Democrats willing to say they are installing a federally-controlled bureaucracy that will control health care and access and share everyone's private data with the federal government? Because the public would oppose it. But now you know.

Senate File 1, Minnesota State Legislature, January 9, 2013.

Presented daily by Twila Brase, President, Citizens' Council for Health Freedom.
