Welcome to the Health Freedom Minute. This is Twila Brase, president of Citizens' Council for Health Freedom.

Health plans are in control. Congress did it with the HMO Act. Obamacare solidified it, but here’s more evidence.

Blue Cross/Blue Shield of Minnesota has reclassified hospital-based clinics. Instead of being classified as “physician services” at a clinic, patient visits to the University of Minnesota Physicians group are now classified as hospital care.

Overnight, in the middle of the health plan year, charges to patients skyrocketed. No more copays. A previous $30 office visit now costs 30 percent of the clinic bill after reaching the $1,000 deductible.

One man said, “I can’t suddenly decide I’m going to start paying less, so why should someone else suddenly decide that I have to start paying more.” This power is just one more reason to repeal Obamacare.
