Be Ready to Rise Up in 2019

Happy New Year! As we enter 2019, consider the proposed Medicare for All program. If enacted, we'd all be forced to participate or be encouraged to do so through financial penalties, much like the Obamacare mandate. Likewise, doctors and hospitals would either be forced to participate or encouraged to do so through financial bonuses and penalties.

However, unlike other countries with socialized medicine, Americans have constitutional rights that forbid such government coercion. The only problem is Congress and the Supreme Court too often refuse to legislate or issue rulings in line with the Constitution. In 2019, States and individuals may need to rise up against this violation of rights. Stay tuned.

Presented daily by Twila Brase, President, Citizens' Council for Health Freedom.
