What is Wrong with Governor Scott Walker?

What’s wrong with Wisconsin Governor Scott Walker? He used to oppose the Affordable Care Act, he suggested he’d pull Wisconsin out of the federal law’s pre-existing condition rules, and he did not expand Medicaid. But now, Governor Walker, prior to running for a third term in office, is working to prop up Obamacare.

He wants state lawmakers to enact a state law mandating insurers cover uninsurable (or pre-existing) conditions. And similar to the Obamacare reinsurance program, he’s asking for $200 million from taxpayers to bailout insurers for the cost of high-cost enrollees. Are the people of Wisconsin surprised by the big-government turnabout?
