Meet Modern Day Medicine Woman

Dr. Julie Gunther’s Idaho clinic does not follow the “7.7 minute office visit” or the “systematized approach” to medicine done in most clinics today. She’s “committed to a community of people.” She’s “someone who knows the stories, the heartbreaks and the adventures and participates life-long as a resource” for her patients.

She’s a modern-day medicine woman, exactly what she always wanted to be—and she’s part of our Wedge of Health Freedom. She bought a building and started her own practice, called SparkMD, after she got tired of feeling badly every day for spending so much time on paperwork and not patient care. She liberated herself so that she could be a doctor to her patients. Find her at JointheWedge.com

Presented daily by Twila Brase, President, Citizens’ Council for Health Freedom.

The Health Freedom Minute is now heard in 47 states: Mornings M-Th at AM1280 (The Patriot) in MN and 91.5 AM WHKC (FreedomFM) in OH, afternoons on American Family Radio, and daily on the CSN network and Bott Radio Network.
