States Should Stop Volunteering to Comply with Obamacare

States can solve the Obamacare problem with one word: “NO.” Your state legislators need to figure this out quickly.

As New York’s Attorney General wrote, “The Tenth Amendment to the U.S. Constitution limits the federal government’s ability to mandate particular action by states and localities…” And in line with what the Supreme Court ruled, he says the federal government cannot “compel the States to enact or administer a federal regulatory program” or compel state employees to help administer it.

Here’s a fact, states can voluntarily comply with an unconstitutional law but they shouldn’t. Tell your state legislators to stop volunteering, take control and end Obamacare in your state.
