Q&A from The Wedge

Today is Q & A on The Wedge of Health Freedom. Robert from Georgia asks “How does this meet the ObamaCare mandate?” Well, that’s a good question. The law requires coverage. The Wedge is not coverage. It’s a map of practices that provide care for cash, check or charge. All patients are welcome but you deal with the insurance part.

Given today’s high deductibles you may have more money in your pocket if you use a Wedge practice instead of a practice that charges the higher prices necessary to deal with insurance and government programs. If you have a question on The Wedge, go to JointheWedge.com and send it in. You just might hear the answer here.
