Five Critical Facts About ACA

Here are five facts on the ACA. First, Obamacare is a government program for everyone buying coverage on the Exchange. Second, the exchanges are a redistribution system forcing people who buy their own insurance to cover people with uninsurable conditions. Third, premium subsidies mean less money in taxpayer pockets to buy their own insurance.

Fourth, If Trump refuses to pay the illegal $7 to $10 billion CSR subsidies that cover some people’s copays and deductibles, insurers will simply leave the exchanges, allowing them to implode. This is good. Fifth, when this happens, states will remember their 10th amendment rights and reinstate the affordable catastrophic coverage the ACA prohibits.
