Meet the Surgery Center of Oklahoma

Thursday is our annual fundraising event. Our keynote speaker is Dr. Keith Smith, MD, the co-founder of the famous cash-based Surgery Center of Oklahoma. If you’re not yet registered to hear directly from the doctor who has revolutionized health care pricing in America, you’re missing out. The surgery center’s prices are up to 90 percent less than most hospitals.

After it opened, its first patients came from Canada. The next were uninsured Americans from all around the country. And now the State of Oklahoma has told all state employees that if they go to the center, there’s no copays or deductibles. It’s that inexpensive. If you want to come, call us to see if there’s space. Go to cchfreedom.org
