Tell the Truth About Socialized Medicine

Thirty one percent of millennials identify as socialist or democratic socialist. Do they know that socialism hampers prosperity, choices and freedom? Since only 12 percent of high school students are proficient in U.S. history, do they understand the deadly socialist histories of Venezuela, Cuba, or Russia? Are they ready for doctors to limit access to care in the name of socialism? Are they ready for sky-high taxes and stifled innovation?

Democratic Socialists of America, the largest socialist organization in the US, supports Medicare for All, which is not patient-friendly or affordable. Ask today’s candidates if they support Medicare for All. Then use social media to share the answer and to tell the truth about socialized medicine.
