Second Printing of Big Brother Arrives!

I have good news! The second printing of my book, *Big Brother in the Exam Room*, has just arrived in the warehouse. Once it arrived the 250 backordered copies were shipped out. As the author, I’m heartened by reader’s comments that show how powerful the information is. One radio talk show host on the West coast said he almost missed getting to the program to interview me because he couldn’t put the book down.

What I shared is essentially unknown. Most people do not know about the dangers of the government-mandated and government-designed electronic health record. Happily, readers tell me it’s easy to understand. You can order it at BigBrotherInTheExamRoom.com
