Reason 4 to Refuse to Enroll in Obamacare.

Over the past two days I've given you three of seven reasons to refuse to enroll in Obamacare. These include the high cost of Obamacare, limited choice of doctors and hospitals, and coverage limited to restrictive managed care plans.

The fourth reason to refuse to enroll in Obamacare are the privacy intrusions. All data you enter on any exchange website will be entered into a new federal exchange database, including household income, family status, employment, citizenship, social security numbers, insurance status, health information and more. Security experts have testified that there is no data security on the federal exchange, and it's already been hacked into once.

Listen tomorrow for more reasons to refuse.
