Obamacare System a Disaster

Obama initially refused to say how many people enrolled in Obamacare using healthcare.gov. Then we found out only 6 people made it in opening day. On November 13, the administration said a few more than 106,000 people had registered. But they’re not all enrolled. Many of them only have a plan in their shopping cart. They may never come back to pay for it. The administration won’t know how many actually enrolled until December.

The system is a disaster. Do you want to depend on these bureaucrats for your health care? Obamacare is Obama’s crown jewel and his people can’t make it work. Will you be willing to wait for government-issued medical care when your life depends on it?
